Policy Convergence Process on Sustainable Forestry for Food Security and Nutrition

This document outlines the proposed process, timeframe, and procedures for reaching agreement on the policy recommendations for ‘Sustainable Forestry for Food Security and Nutrition’, informed by the High Level Panel of Experts report.

This proposal aims to build on the experience and lessons learned of past years in the Committee’s efforts at continuous improvement, while retaining the core elements of:

- **Inclusivity** – that all stakeholders that are interested in engaging are able to;
- **Quality** – allowing sufficient time to review the HLPE report and discuss the findings and recommendations without compromising final negotiated outcome;
- **Flexibility** – using all tools available to arrive at consensus depending on the specific issue at hand and interest of stakeholders involved.

Outline of Process and Timeframe

### Meeting to discuss comments raised by stakeholders

**July 25**

Exchange views and ideas based on comments received

---

### Rapporteur’s proposal incorporating comments received and discussed in meeting circulated

In all languages

**By August 4**

As soon as possible

---

### Stakeholders are asked to submit written comments on the Rapporteur’s Proposal

**Deadline for comments:**

**By September 11**

---

### Two day interpreted session to

- hear comments and issues from all stakeholders on the full Rapporteur’s Proposal,
- identify areas of contention for attention by informal working groups,
- agree on consensus text.

**September 19** and **20**

Allows for over one month after receipt of Rapporteur’s Proposal to consult with capitals/stakeholders and prepare input for reaching consensus.

*No new proposals should be introduced after this point.*

---

### If needed, new Rapporteur’s Proposal on any remaining un-agreed text is circulated based on views shared in two day meeting and Rapporteur assigns issues to be taken up by informal working groups

**September 25**

---

### Informal meetings to arrive at consensus if needed

**September 25**

Groups can be formed and led by interested stakeholders tasked with reaching consensus on specific text, based on positions shared in two day session

---

### If needed, half day wrap-up meeting to finalize document:

- Informal groups present results
- Final approval of document to send to plenary

**October 4**

Discussion focused on issues and implementation. Potential to bring in case study presenters from different areas of policy practice.

---

### Plenary session

**9 – 13 October 2017**

The process for reaching agreement (e.g. tracking verbatim on screen, note taking, Rapporteur’s proposal frequency) will be left to the Rapporteur and to the discussion carried out with stakeholders on July 12. The form or style that any informal meeting takes will be up to each group.

With the expectation that the recommendations are agreed ahead of plenary, the plenary session includes interventions by experts and practitioners addressing forestry and food security and nutrition – both from the HLPE Project Team and more widely. The discussion is devoted to key issues/findings of the HLPE report and addressed in the CFS recommendations, and the implications for policymaking in various regions.
