5 - PROMOTING URBANIZATION, RURAL TRANSFORMATION AND IMPLICATIONS FOR FSN (2018-2019)

EXTRACT FROM CFS BUREAU AND ADVISORY GROUP MEETING OUTCOMES – WITH BUREAU'S DECISIONS - 23-25 July 2018

[...] Item 7

At the joint meeting, the CFS Chair recalled that this workstream had been put on hold due to lack of extra-budgetary resources. It was then suggested, after consultation with the OEWG Chair and the Technical Task Team, knowing that extra-budgetary resources are becoming available, to carry over the two events and to hold them early in the next intersessional period so as to inform future MYPOW discussions. It was underlined that the topics of the two events were already agreed in CFS44 (FSN impacts of urbanization/rural transformation dynamics on lower income groups; women and youth employment across the rural-urban continuum) and that they remain highly relevant to the work of the Committee and present complementarities with other workstreams such as CFS work on Nutrition and food systems. Comments were made on the need for CFS to develop clearer objectives for this process, in terms of what policy outcomes are envisaged, as well as to get a clearer understanding of the areas of comparative advantage/added value for CFS. Finally, it was explained that, as the above activities are already foreseen by the 2018-19 MYPoW, they do not require further endorsement.

Bureau's Decisions:

The Bureau took note of the update regarding forthcoming funds which will enable the two intersessional events foreseen in the current intersessional period to be held after CFS 45. The Chair again noted that the above activities are already foreseen by the 2018-19 MYPoW, that they are simply rolling over to 2019 and, as such, they do not require further endorsement by Bureau nor Plenary.

EXTRACT FROM MYPOW 2018-2019

24. Taking into consideration the interest expressed by CFS stakeholders in continuing to explore both general and specific issues pertaining to the broad topic of urbanization and rural transformation in relation to food security and nutrition, it is proposed that in 2018 two intersessional events be held to integrate additional knowledge and new research findings.
25. The intersessional events will be organized with the support of the Technical Task Team (TTT) set up in 2016 and seeking input from the HLPE Steering Committee. They will be informed by the outcomes of the work carried out by CFS in 2016 through the Forum on Urbanization, Rural Transformation and Implications for Food Security and Nutrition, and the work of the OEWG in 2017 to compile experiences and effective policy approaches in addressing food security and nutrition in the context of changing rural-urban dynamics. The intersessional events should focus on issues where CFS has a particular value to add, recognizing there are many institutions working on the topic and new knowledge being generated.
26. The two proposed focus areas for the intersessional events are: i) the food security and

nutrition impacts of urbanization and rural transformation on lower income groups (smallholders, landless, net food buyers, informal sector traders, low income urban consumers) and how to address them and their root causes; and ii) Promoting youth and women engagement and employment in food systems across the rural-urban continuum, including linking producers to markets.

27. A Chair’s summary will be prepared for each of the two events, followed by an overall Chair’s summary which will be informally shared with CFS stakeholders before its submission to CFS 45 with the purpose of facilitating an informed discussion around the CFS added value and feasibility of a policy convergence exercise.

II. OVERALL OBJECTIVES

28. Along with the objectives set out in para 23 of the 2018-19 CFS MYPoW, this workstream will focus on *“carrying out further exploratory work in order to assess the feasibility of and, if feasible, work towards policy convergence to support governments and other stakeholders at the national and local level in addressing food security and nutrition within the context of changing rural-urban dynamics.”*

II. EXPECTED OUTCOMES

- 2 intersessional events
- 2 Chair’s summaries
- 1 overall Chair’s Summary as an input into the MYPoW 2020-2023 process

III. ACTIVITIES FOR 2018-19

ACTIVITY	TIMEFRAME

Second intersessional event on <i>‘Promoting youth and women engagement and employment in food systems across the rural-urban continuum’</i>	29 January 2019

IV. TECHNICAL TASKTEAM

A Technical Task Team, comprising individuals designated by Advisory Group representatives, will support the CFS Secretariat with the design and organization of the two intersessional events.
