All applications will be treated in confidence. Only short-listed candidates will be contacted for an interview. The interviews will take place on the **7th and 8th of August via Skype**.

WHAT IS THE CSM

The CSM is the largest international mechanism of civil society organisations (CSOs) working to eradicate food insecurity and malnutrition by promoting effective agriculture, food security and nutrition policies, at the national, regional and global levels. The CSM gives particular priority to peoples organisations and social movements consisting of the people most affected by hunger and malnutrition. For more information on the CSM please consult the website www.csm4cfs.org

In 2009, the Committee on World Food Security (CFS) underwent reform in order that it could become the foremost international and intergovernmental platform for promoting coordinated action amongst governments and other stakeholders in order to ensure food security and nutrition for all human beings. CFS Member States recognised the right of CSOs to autonomously establish a global mechanism for food security and nutrition to function as a facilitating body for civil society consultation and participation in the CFS.

The CSM Secretariat, maintains a politically neutral role within the CSM, and is dedicated to provide support to all CSOs working on food security and nutrition issues, to enable them to participate in, and influence, policy processes. The Secretariat supports, and reports to, the Coordination Committee of the Mechanism.
